Professional Summary

Creative graphic designer and video editor who turns client briefs into polished, ready-to-publish visuals and video content. Skilled in Adobe Premiere Pro, After Effects, Photoshop, Illustrator, InDesign and Canva, with a strong eye for typography, colour, layout and visual hierarchy. Has delivered design and digital content for nonprofits, healthcare providers, educational platforms, churches and small businesses, working remotely and to deadline. Brings clear, concise writing and a detail-focused, organised approach to every project. Keen to create engaging social media content for Avocado Virtual Solutions.

Core Skills

Video Editing & Motion: Adobe Premiere Pro, Adobe After Effects, video editing and post-production, motion graphics, short-form content

Graphic Design: Adobe Photoshop, Adobe Illustrator, Adobe InDesign, Canva, Figma, social media graphics, flyers, booklets, branding and visual identity

Content & Copywriting: Client-brief interpretation, headline and caption writing, clear and persuasive copy, content planning

Design Fundamentals: Typography, colour systems, visual hierarchy, layout and composition, consistency across brand assets

Web & Tools: HTML5, CSS3, JavaScript, WordPress, Git and GitHub, Visual Studio Code

Professional Experience

Freelance Graphic Designer, Video Editor & Web Developer

Remote · 2024 – Present

- Design graphics and visual content for clients across nonprofit, healthcare, education, faith-based and small business sectors, adapting style and tone to each audience.
- Produce flyers, booklets and promotional materials in Adobe InDesign, Photoshop, Illustrator and Canva, with clear structure, readable typography and consistent branding.
- Edit video content using Adobe Premiere Pro and After Effects. [Add specifics: type of videos, platforms, number of projects.]
- Turn client briefs into finished content, writing and arranging headlines, text and images so each piece is clear and engaging.
- Manage projects independently and remotely, from brief and draft to revisions and final delivery, meeting client deadlines.
- Build and maintain responsive websites with HTML5, CSS3, JavaScript and WordPress, extending brand visuals from print and social to the web.
- **Selected projects:** ImpactConnect · Lifegate Specialist Hospital · ExamUploads · Godly Stories

HMO Officer / Administrative Officer

Jethrone Hospital & Diagnostic Centre · 2023 – 2024

- Managed patient registration and administrative records with a high standard of accuracy.
- Coordinated HMO documentation and billing between patients, the hospital and providers, communicating clearly with different stakeholders.
- Kept information organised and easy to retrieve, improving administrative workflow.
- Supported daily operations and delivered front-line customer service.

Education

Information Technology & Innovation Program, New Vision Institute of Technology (NVIT)
